

Spring 2021 - College of Agriculture - Individual Instructor
Report for EXST 7087 (section 001): ADV TOPICS IN STAT
- DIGITAL AGRICULTURE (Athanasios Gentimis)

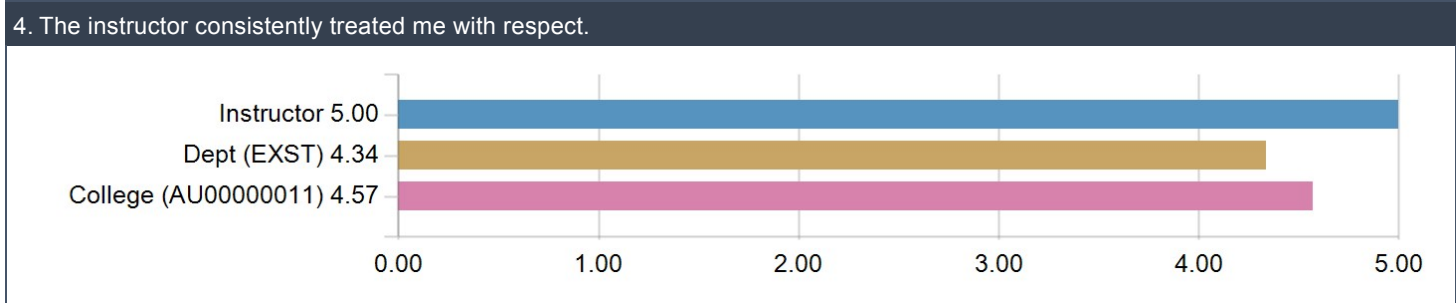

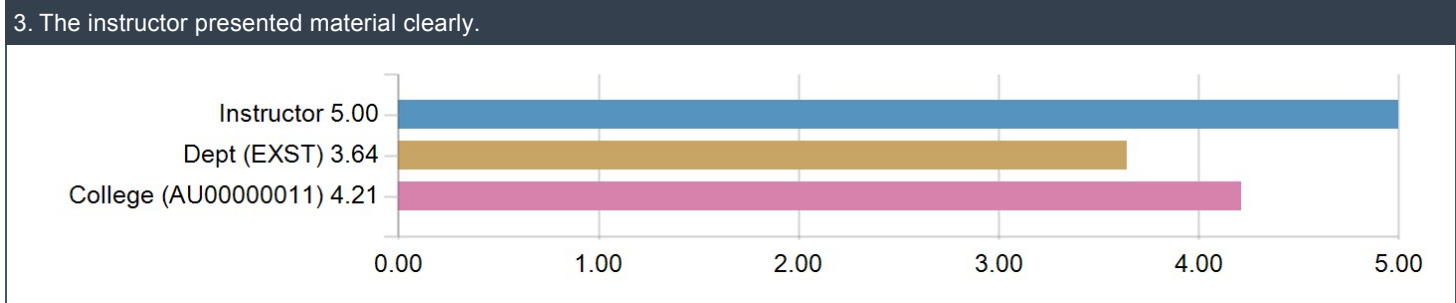

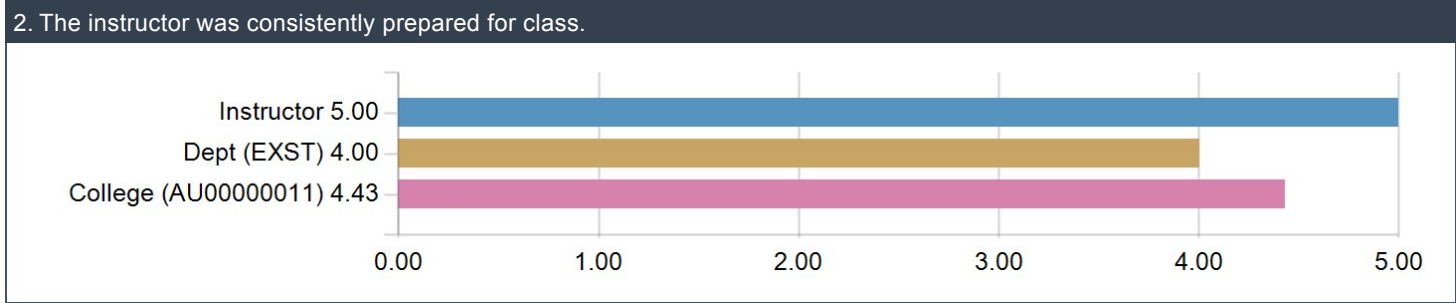

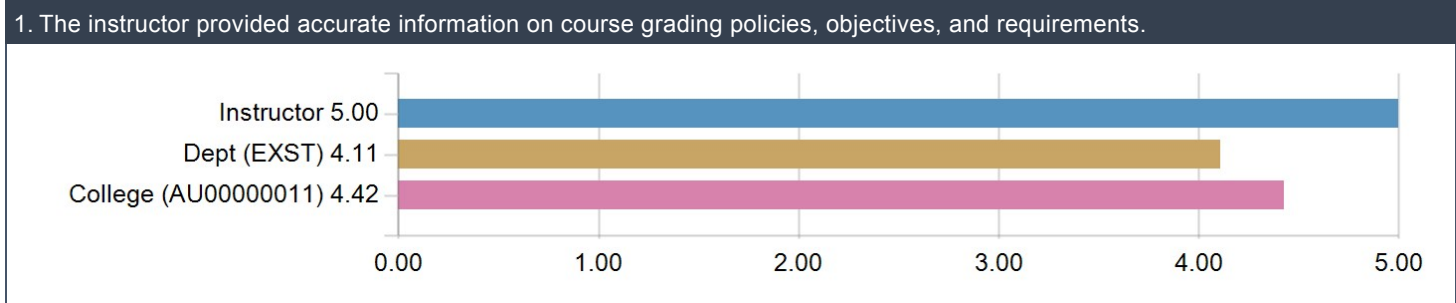

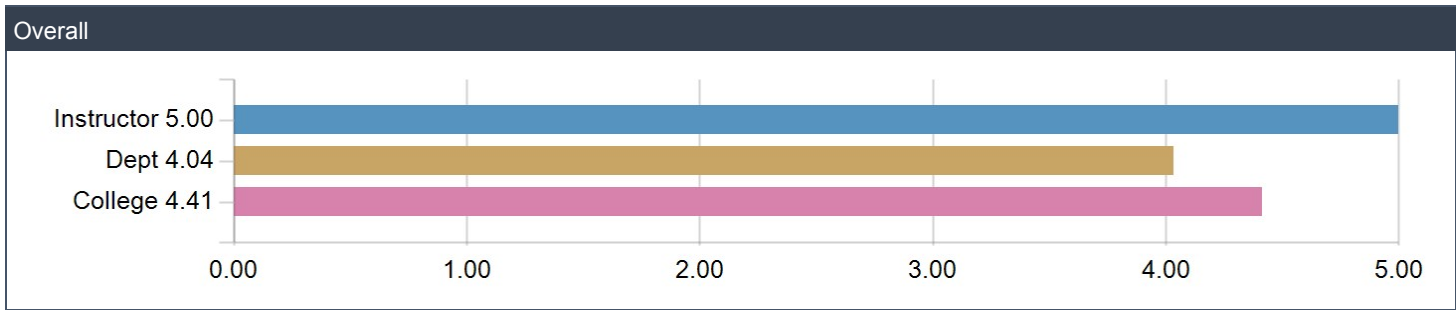

Project Title: **LSU Course Evaluation - Spring 2021**

Course Audience: **7**

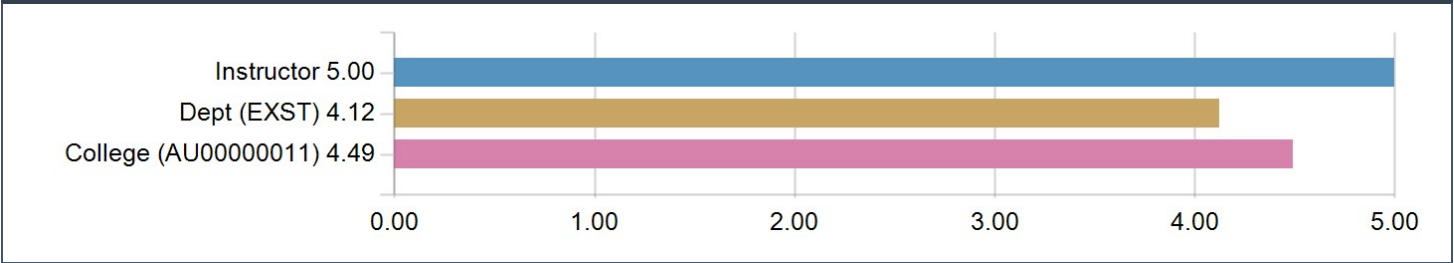

Responses Received: **6**

Response Ratio: **86%**

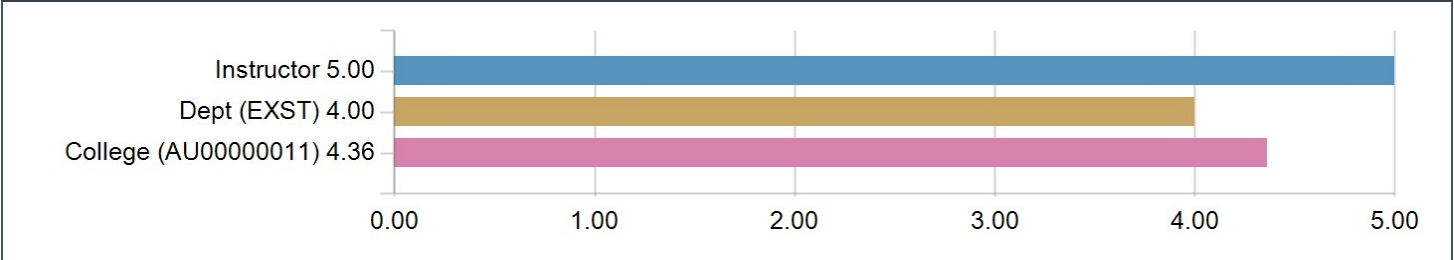

(AG-01) Feedback for Instructor: Athanasios Gentimis

5. The instructor was receptive to me outside scheduled class meetings.

6. The instructor provided useful feedback on how to improve my performance when requested.

(AG-01) Feedback for Instructor: Athanasios Gentimis

	N	% SA	% A	% N	% D	% SD	N/A	Mean	STD
The instructor provided accurate information on course grading policies, objectives, and requirements.	6	100%	0%	0%	0%	0%	0	5.00	0.00

(AG-02) Comments about Instructor Athanasios Gentimis

Comments
 Dr. Thanos is a great professor and always explains the material in a way that is easy to understand. His classes are always engaging and easy to follow and he always does his best to ensure everyone understands the material.

I believe this is the BEST course offered at LSU! The content taught in one class would normally take several classes to amass. The course information is transferrable to different disciplines and colleges. I am primarily from the School of Education and the machine learning algorithms employed in this course has drastically transformed the statistical analyses I will harness in the future! Dr. Gentimis teaching style and openness to adapt to differing learning styles is truly a sign of a great professor! You could tell throughout the course his deepest desire was for us to be able to apply the techniques and worked very hard to incorporate examples and content to assist each person in their personal fields. Dr. Gentimis was willing to meet outside of his normal office hours and met with me multiple times at my convenience to be able to consult me on homework assignments, data conversions, and computer science content. I would tell other people this is a MUST TAKE course! It has changed and transformed my PhD student career. GREAT JOB DR. GENTIMIS! I will recommend this course to others!

Comments
<p>this course was very informative but the amount of material covered was so vast. I feel like this course could almost be split in 2 with one focusing on machine learning and the other covering R and QGIS</p> <p>The Moodle page for this course was the most comprehensive course Moodle page I have seen to–date! It was a perfect demonstration of what Dr. Gentimis was teaching us throughout the semester, which is the ability to go research and find information. Even outside of the Moodle page, I would search the internet for forums and additional content to be able to enhance my code or presentations. Additionally, he gave us an opportunity to create manuscript ready project and assisted in the data analysis process. The amount of content that was covered was amazing because it was not overwhelming, but the homework assignments honestly solidified the teachings. The ability to apply the skills learned to code that could work with our own data and presenting the results, took information from the theoretical to the applicable. By FAR, the BEST COURSE at LSU!</p>

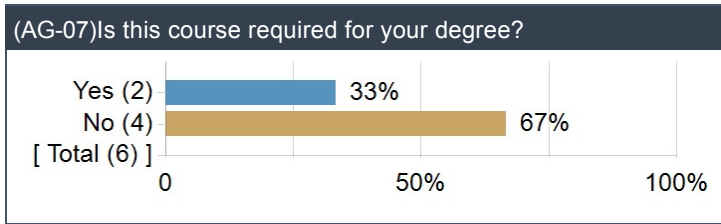

(AG-05) Overall, I would evaluate this course as excellent.

(AG-05) Overall, I would evaluate this course as excellent.	
	

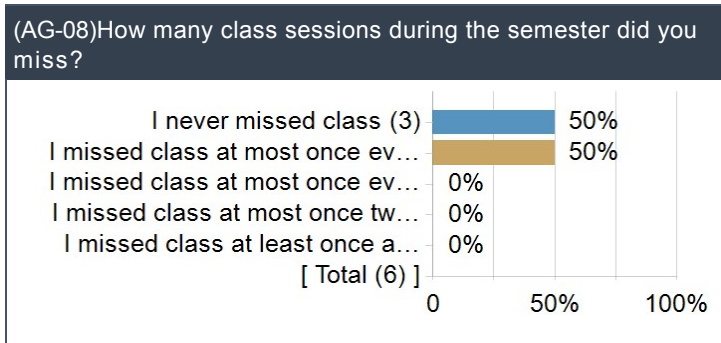

(AG-06)Overall, I would evaluate this instructor Athanasios Gentimis as effective.

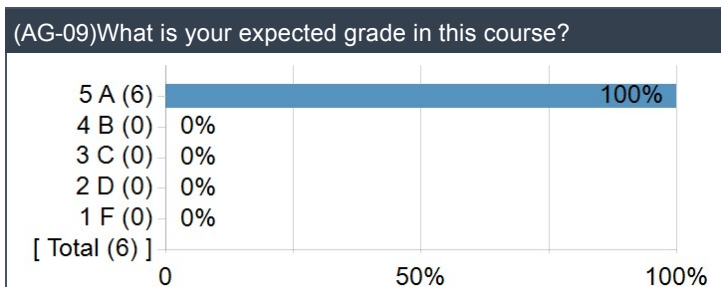

(AG-07)Is this course required for your degree?

(AG-08)How many class sessions during the semester did you miss?

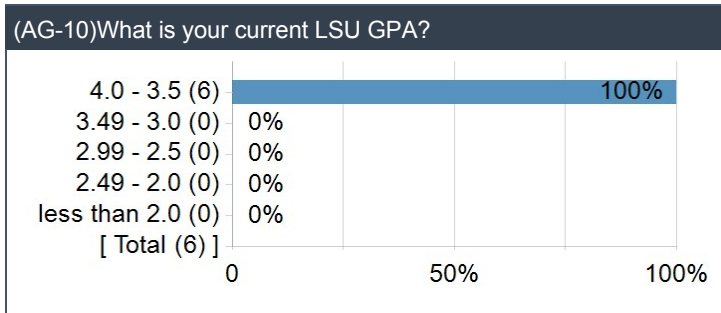

(AG-09)What is your expected grade in this course?
